Things we've seen... and loved!

It was a match made in typo heaven when [PAGE THIRTY THREE](#) teamed up with [BLACKLIST](#) on the Art Series collaboration, transforming their signature customisable Cinematic Light Box with the latter's distinctive hand lettering style. It's available through selected design stores and online. [pagethirtythree.com](#)

Gold Coast designer Sara Hingle has us swooning big time with her cushions and wallpaper designs she's called [THESE WALLS](#). With a definite graphic element yet an understated, earthy style, we think her designs are really beautiful and covetable. [thesewalls.com.au](#)

Founded by two Brisbane friends, [ALMA LUZ](#) pure soy scented candles are tailor-made luxe essentials. They recently collaborated with fashion designers [EASTON PEARSON](#) on a bespoke marble range, which look as amazing as they smell! [almaluz.com.au](#)

There's nothing quite like 100% pure linen to evoke a rustic elegance. The Flocca European linen tablecloths from [HALE MERCANTILE & CO.](#) are finished with beautifully hand 'tufted' edges and look simply sublime when layered with their pure linen runners and napkins. From \$169, [halemercantileco.com](#)

Artist [LISA MADIGAN'S](#) work doesn't so much speak as it does whisper. With an atmospheric, almost ethereal style, her Light series of paintings are layered with oil on wood and completed with a round copper frame. Modern, contemporary simplicity at its finest. [lisamadigan.com.au](#)

DESIGN & DECOR

RACHEL KENNEDY DESIGNS is the dream of artist Rachel and her husband Jarrod Kennedy, who reside on Sydney's Northern Beaches with their two children Milla and Frankie. Together they create evocative wall art prints and stationery, with all materials locally sourced and crafted. We love how almost all of their products are made from 100% recycled paper and printed with non-harmful vegetable and soy based inks. rachelkennedydesigns.com

Sweet dreams are made with these gorgeous pillows from Melbourne-based **FELIZ** – with super soft organic cotton and an ethically produced ethos, they're fun, colourful and decorative additions to the bedrooms of the young and the young at heart. felizhome.com.au

We adore their artisan woven rugs, but Carl and Victoria from **PAMPA** have also put their dual photographic skills to great use in their range of equine prints, inspired by the horses of Victoria's childhood in Argentina. From \$260, pampa.com.au

Each piece from **NO-MAD** has been beautifully and ethically handcrafted by Indian artisans using the highest quality cotton and linens, with a contemporary twist on traditional design methods. Inspired by India and other exotic locations around the globe, the new collection uses black as its modern undertone... and we couldn't love it more! Enquiries to artisansoffashion.com
